

Essilor Voucher Reprice Program.

When program starts, it is necessary to click on settings and enter the account number and enter a live folder into the download folder.

Click update to return to the main screen.

Press download and if the FTP settings are correct then the latest file is downloaded. It is given a date / time suffix. The ... button alongside will allow you to go back and reprocess the downloaded file at a later time. It is expected that the file will be downloaded, processed so that there is no need to reprocess later.

The screenshot shows a window titled "Load Voucher Prices" with a "Download" button and a "Pricing Import File" field containing the path "rs\david\Documents\Solenzara\Reprice_150903160043.txt". A "Settings" link is also visible. The main area contains a table with the following data:
