

It is now possible to give a special discount for orders placed by EDI. This will appear as an additional line on the order.

In the customer record, on the discounts tab there is a new page called EDI.

The screenshot shows a software interface with a tabbed menu at the top. The tabs are labeled "Discounts by Product Group", "Supply Frames", "Discounts by Complete Frame", and "EDI". The "EDI" tab is selected and highlighted in yellow. Below the tabs, the text "EDI Discount" is displayed above a text input field containing the value "5.00".

Here set the discount percentage to be used.

When an EDI order is then processed for this customer, the discount is applied.
