

Multiple currencies.

Annapurna can handle different currencies.

In the customer record there is a currency code field.

The screenshot shows a software window titled "Customer Maintain". On the left, there is a search filter with the text "train" and a "List" button. Below it is a "Pricelist" dropdown menu. A table lists customer records with columns "A/C" and "Name", showing "100001 Training" selected. The main area displays the details for "100001 Training" with tabs for "Basic", "Accounts", "Group", "Pricelists", and "Discounts". Fields include "Salesperson", "Chain", "Buying Group", "Currency Code" (containing "XXX"), "Country Code", "Language Code", "Discount ID" (containing "0"), and "Shipping Group" (containing "OCS"). There are also checkboxes for "Hide Prices on D/Note", "Price over Cosmetic", "Keep to 70 with decent.", "Thicker Supra", "Show List only", "Send Email", "Use Larger dia.", and "Bulk Customer". A "Messages" section has "Order Entry" and "Production" fields. At the bottom, there are buttons for "Add", "Update", "Next", "Previous", "Delete", "Close", "Import", and "Export", along with a link "Upload All to Solenzara".

In a pricelist, there is a currency field.

The screenshot shows a window titled "Price lists" with a standard Windows-style title bar. At the top left is a "Build List" button. To its right is a "Filter" label followed by a text input field containing "xxx". Below this is a table with two columns: "Code" and "Description". The table contains one row with the code "P7000" and description "XXX Pricelist", which is highlighted in blue. Below the table is a form with several fields: "Code" (P7000), "Currency" (XXX), "Description" (XXX Pricelist), and three checkboxes: "Nett", "Date Restricti", and "Prefix" (with an empty text input field next to it). At the bottom of the form are "Update" and "Remove" buttons. Below the form is a "Copy to Price" label with an empty text input field. At the very bottom are "Close" and "Copy" buttons.

Code	Description
P7000	XXX Pricelist

Code: P7000    Currency: XXX  
Description: XXX Pricelist  
 Nett     Date Restricti    Prefix:

Update    Remove

Copy to Price:

Close    Copy

When Annapurna is checking the pricelist to use for a customer, it checks the customer currency record against the pricelist currency and will discard the pricelist if it does not match.
